

Special Offer for Bangladeshi Community from Emerton Veterinary Clinic

The only Bangladeshi Australian Veterinary practitioner is proud to announce a special discount only for Bangladeshi Australian community members. We have made this decision to announce this offer to make our community members aware of the importance of animal health care and at the same time taking the advantage of communicating with a friendly Bangladeshi Australian Veterinary Surgeon for their animal care needs.

Any members of Bangladeshi Australian community will be entitled to a “special discount” on animal health check up, vaccination, micro chipping, de-sexing, dental or any other treatment/surgery.

Emerton Veterinary Clinic is also proud to make the commitment of donating 5% of the income generated through this special offer to Bangladesh Forum for Community Engagement – an organisation dedicated in helping disadvantaged community members.

Please mention this offer while making appointment for getting this special discount.

Dr Lovely Rahman
Veterinary Surgeon/Owner
