

Spring

Afrida Mamun

As the crystal clear blue sky appears,
Some multicoloured suns with five radiant rays pop up,
The spectacular green jewels glisten from the bright yellow star
Is as charming as your morning tea cup.

Sometimes it goes crazy and starts to cry,
Then all the radiant rays pop down
But the green jewels just keep shining and glistening
In its own green jewelled town.

Then it runs out of sadness
It brings out a humungous yellow star
This star gets its whole mighty and lets out a great gust of light
That wakes the rays and the crystals and says "look how dazzling you are".

Spring is astonishing to
Bake in the big yellow sun
Splash in the wide playful puddles
There are lots of amazements in springs to blow your mind with fun fun fun!
